returns of the season.

# Dandy Musical Comedy For Christmas

Billy Clifford and His Girly, Girly Beauty Chorus.

If you don't like to laugh and listen to good music, stay away from the El Paso theater tomorrow and Monday.

You've just got to laugh and you can't help but get that whistley sensation if you go to see and hear Billy Clifford and his girls and boys in their "musical feast in two acts." They call it "The Man, the Girl and the Game," but it would go just as well under any other name, in fact it is not necessary to give it a name; it is a show that has made a name for itself.

Then, practically every member of the show does a specialty and the girls—it is very much of a girly show—they seem to do nothing but change pretty costumes and sing new songs. Nobody goes to sleep; it is a wideawake, action show; every minute there is something moving, and it is all fresh, vivacious, sparkling.

name; it is a show that has made a name for itself.

There is a plot to the play—considerable of a plot—but not enough to bother the brain keeping track of it and if you don't care to keep up with the plot, there are specialties enough to give you your money's worth, even if the show was twice the price. Billy Clifford is himself a whole show when he comes out and does his stunt with his hat; he is just down on the program as "Billy Clifford and his plug hat," but it is enough. Billy stays on the stage sparkling.

There is exactly a dozen big chorus numbers in the show, including that one asking "Has Anybody Got a Kiss for Me!" which made such a hit with Joe Pollard, Charlie Kinne, Dick Warren and the rest of the El Paso bunch at Pueblo when all the chorus girls wore the El Paso badges and Billy Clifford cracked jokes about irrigation and even diked out his famous Irish terrier "Bum," in an El Paso badge. "Moon Talk," "How'd You Like to Marry Me!," "A Twig of Shamrock," "Meet Me Tonight

others are equally as catchy as the one that caught the El Pasoans.

But the piece de resistance of the show is the pantomime dance by Clifford and the cute little soubret. Miss Marguerite Devon. It is one of the prettiest pieces of real artistic dancing and pantomimic stage work that you will see anywhere;

some are so whistley that you will go home with your mouth puckered.

If Frank Rrich doesn't have a full house for his Christmas matinee and night performances and again Monday night, to see this company, then El Pasoans will be the losers.

This is the opinion of one who saw the show, in Pueblo.

for several minutes and if there is a in Dreamland," "Meet Me in Honeysecond that the audience is not in a roar of laughter, it will be different from most audiences.

In Dreamland," "Meet Me in Honeysuckle Time," 'That Was All, Nothing you want to go back again, and the songs are so whistley that you will go home with your mouth puckered.

# UATA SUBMITTED IN BEHALF

Culberson Contends That 3, p. 833) this proposal was accepted by There Has Been Ample Proof in Favor of Texas and Against New Mexico.

Washington, D. C., Dec. 24.-Senator Culberson's arguments in behalf of Texas in the dispute with New Mexico over the western boundary of Texas have been filed. The senator cites laws and contention that New Mexico is wrong, and the senate and president Taft evidently agree with him, for the president of the United States and president taft evidently agree with him, for the president of the Elask Survey.

A summary of the legislation enacted by the congress and the legislation of the State of Texas adopted the United States are the summary of the state of Texas adopted the United States and the United States and the legislation of the state of Texas adopted the United States and the legislation of the state of Texas adopted the United States official correspondence in proof of his

government with regard thereto, as submitted by Mr. Culberson, follows:

The United States by act of congress approved September 9, 1850 (9 Statutes A. L. p. 446), proposed to the state of Texas that in consideration of the pay-ment of \$10,000,000 to her, the state United States and agree that her boundary on the north should commence at the intersection of the 100th meridian to longitude west from Greenwich to the parallel of 36, 30 north latitude. running thence due west to the 193rd meridian or loggitude west from Green-wich; thence due south along said me-ridian to the 32nd degree of north latitude, etc.; the line from the intersection of the 193rd meridian and 36, 36 north latitude south to 32 north latitude, to constitute the boundary line between the Texas panhandle and New Mexico. By an act of her legislature, approved Nov. 25 (Gammel's Laws of Texas, vol.

by an act approved Feb. 11, 1854 (Gammel's Laws of Texas, vol. 3, p. 1525), provided for the appointment of a commissioner by the governor to act in ning and marking the line here under discussion between the state of Texas and the territory of New Mexico, in ac-

the president of the United States, to

and the legislature of the state of Tex-as with reference to this boundary and the governor of Texas, it was decided survey. reference to this boundary and official of the executive departments of the government with record at the Rio Grande them. 32nd parallel to the 103rd meridian, thence north along that meridian as far as practicable. (Ex. Doc. No. 70, 47 Cong., 1st session, pp. 206-207),
The survey was begun on the ground

by the joint commissioners Jan. 3, 1859, and the intersection of the Rio Grande, and, the 32nd parallel having been determined, the line was run eastward and marked along the parallel to the 103rd meridian, or what was determined to be the 103rd meridian, by transfer from Frontera, Mexico, in accordance with instructions to commiss Clark by the secretary of the interior

and marking of the 193rd meridian. north was begun and continued by J. H. Clark alone, the Texas commissioner having abandoned the work. Clark ran and marked the line north 70 miles, or a west to the Pecos river, and proceeded up that river, and across to the intersection of the 103rd meridian and 36.30 north latitude. He located that intercordance with his instructions from the by another Texas commissioner, he con-tinued the prolongation of the 103rd and never resumed along this meridian by him or any other commissioner rep-resenting the United States.

the 103rd meridian north (from its intersection with the 22nd parallel) 70 miles (Ib. p. 279); and that he ran and marked the line on the 195rd meridian south from its intersection with latitude

The legislature of the state of Texas conjunction with a commissioner to be appointed by the United States in run-

cordance with the compact of 1850.

An act of congress, approved June 5, 1858 (11 Stat., A. L., 310), provided for the appointment of a commissioner, by

(Ex. Doc. 76, 264.) On the 23rd of May, 1859, the running

little beyond the 33rd degree of lati-tude. (Ib. p. 238.) Finding it imprac-ticable, because of a scarcity of water, to proceed further, he then returned section which constituted the north-section which constituted the north-west corner of Texas by observations to obtain the latitude, and by taking up the 103rd meridian, as then estab-lished at the Kansas boundary, and transferring it to latitude 36.30, in acsecretary of the interior. (Ib. p. 265.) Having been joined at this intersection meridian. So was begun on August 23, 1859 (Ib. p. 299), and continued to a meridian. So was begun on August and from there to Alpine and Sierra 23, 1859 (Ib. p. 299), and continued to a Blanca, on to El Paso. The party left point south of the 34th degree of north latitude. (Ib. p. 278) which, because of the lateness of the season, and the occurrence of a succession of sand hills. currence of a succession of sand hills. They will remain in El Paso over the work was halted late in October, Christmas.

36.30, 184 miles (Ib. p. 280); erecting altogether, on both lines, 26 monu-ments, chiefly of earth and stone (Ib pp. 302-303).

The commissioner of the general land office of the United States, in a letter to the secretary of the interior, of date of Jan 11, 1882, states that the office work connected with this survey was never completed by commissioner Clark, but that all of the field work was executed except a part of the west boundary, which was not run, viz: from 33 north latitude to 33.45 north latitude (fb. p. 1), which substantially agrees with Clark's report of October 24, 1859, that: "After the establishment and marking of the corner, the 103rd meridian was taken up and surveyed across the Canadian and to a point of the Llano Estacado, south of the 34th parallel; a distance, with the survey from the Kansas boundary, of about 240 miles;" (1b. p. 278); and his letter of July 16, 1860, that he purposes "running out and marking the are that remains (about 50 degrees) of this meridian en my return," referred, of course, to the hiatus between the 33rd and 34th paron the ground (1b. p. 280).

This left a hiatus of about 56 miles

between the termini of Clark's north and south lines along the 103rd meridian, covering the greater portion of the western boundaries of the counties of Yoakum and Cochran in the state of Texas; and a portion of the eastern boundary of the county of Chaves in

By the act of March 3, 1891, the con-gress of the United States confirmed and adopted the lines run and marked by commissioner Clark (along the sup-posed 103rd meridian), in the follow-

ing language:
"That the boundary line between said public land strip of Texas, and between Texas and New Mexico established under the act of June 5, 1858, is hereby confirmed." (26 Stats., A. L., p.

Thisact of the congress was in terms accepted by a joint resolution of the leg-islature of the state of Texas, passed on March 25, 1891, duly establishing and accepting the lines laid down by Clark as the true boundary line between Tex-as and New Mexico. (Gammel's Laws of Texas, vol. 10, p. 196.)

Facts Summarized. Summarising, then, the facts appear

to be:
1. That the 103rd meridian from latitude 36.30 north, south to latitude 32 north, was adopted as the western boundary line of the Texas panhandle. by compact between the governments of the United States and the state of Texas in 1850.

2. That 76 miles were run and mark-ed northward along the 103rd meridian. from the southeast corner of New Mexico, and 184 miles were run and marked southward along said meridian from the northwest corner of Texas, by J. H. Clark, commissioner of the United

3. That a portion of Clark's old line south from the northwest corner of Texas along the 103rd meridian was retraced by W. S. Mabry, an official surveyor of the state of Texas in the years 1882-1885; and 40 of Clark's monu-ments, including the one marking the northwest corner, identified certainly, and the position of one (No. 20), accurately. That Clark's monuments 15 rately. That Clark's monuments 15 and 16 so identified by Mabry were identified by United States surveyors

6. That state surveyor Mabry's line surveyor Preston, and the Clark monu-ments identified.

7. That the state of Texas has sold nearly all of the land with the recognition of the Clark's lines. 8. That the state has frequently exercised political and police jurisdiction over the territory east of the Clark

That the United States have acqui-

esced in such acts.

#### OHIO PATHFINDERS SEEKING NEW ROUTE

Party of Four on Overland Jaunt to Spend Christmas Here.

A party of four pathfinders in the "Ohio Three Coast Good Roads Run, arrived in El Paso Friday night. The purpose of the tour is to establish an automobile route through the southern states from New York to San Francisco, and it is being held under the auspices of the American Automobile association. In the party are E. L. Fur-guson, of New York, the A. A. A. rep-resentative, G. W. Finney, of the Ohio Motor Car company; Charles Thatcher and Fred G. Clark, of Cincinnati.

The route over which they came was from New York to Atlanta, Ga., over the national highway, established by the New York Herald, through Alabama, Tennessee and Arkansas to Texas. They entered Texas at Texarkans,

### Fortunatus Questions His Daddy

Say, daddy, when do the first permanent teeth come through?

Usually about 5 or 6 years of age, but before any of the "baby set" are shed a child cuts 4 permanent molars called "6th year molars."

Dr. H. A. Magruder

I DON'T WORK FOR NEGROE: Plaza Biock

Start Movement to Store Water for Irrigation.

a movement on foot to have a dam placed on the Pajarita creek adjoining Tucumcari on the north, and confining the flood waters of both Pajarita and Water creek. Preliminary steps have been taken in the matter, it be-ing claimed by the residents of the valley that sufficient water can be had during flood times to irrigate the en-tire valley. A petition agreeing to support the movement is being circulated by the farmers in the neighborhood. Superintendent Hofer, of the Tucumsuperintendent Horer, of the Tucum-cari public schools, dismissed the city schools until January 2, completing the first half of the school term. All the examinations have been finished and grades assigned. December marked a gain in attendance over the previous month and was the best month in attendance since the opening of school

Judge Roberts, of Raton, recently confirmed as a district judge in this territory, will be in Tucumcari December 29, to try two cases in which judge E. R. Wright is disqualified by having

acted as district attorney last year. All of the petit jurors have gone to their homes for Christmas, having been dismissed until December 28.

H. L. Williams and Miss Zulu M. Greer, both of Jordan, N. M., were married at the courthouse by judge J. D. Cutlin. They returned to London. D. Cutilp. They returned to Jordan.

J. D. Lovelady has leased the newly finished rooms over the first National bank and will make a rooming house of them. There are 20 rooms, two of them with private baths, and all heated by steam and lighted by electricity. Mrs. J. R. Wells died after a short illness and the body was taken to her old home in the east for interment.

#### AMUSEMENTS.

BILLY CLIFFORD.

Billy (Single) Clifford, the star in "The Girl, the Man and the Game," owns a famous hat and a theater. The hat was made for him some years ago when he was with Tony Pastor, and it when he was with Tony Pastor, and it is as famous behind the footlights as Lillian Russell's beauty. The theater is called the Clifford, and it is in Urbana, Ohio. Every season Mr. Clifford plays his own house, and he always is sure of a great success. Mr. Clifford and his excellent company will be season at the El Pasa theater Sunday. seen at the El Paso theater Sunday and Monday and at a special Christmas matinee Monday, where he will reveal his new vehicle of fun and frolic and sing a dozen new songs, aided by a beauty chorus, gorgeously gowned. Seats are now selling.

REOPENING OF THE CRAWFORD "Father and the Boys," which has been selected by the Bittner company as its initial offering to El Paso theatergoers, is a comedy written in Geo. Ade's best gein. It has been used as a starring vehicle by W. H. Crane for the past three seasons and has only re-cently been released for stock companies. In spite of the expense attached to the production of this class of plays there will be so advance in prices at the Crawford during the Bittner engagement, "Father and the Boys" is a comedy with a plot and classed by the well-informed with never falls to make a hit. The Bittner medicines which make extravagant company is said to be most happily cast in this play. The play is in four acts and the interest grows with each constipation without personal co-opact until a most happy and unexpected oration. elimax is reached. It is said not to be
